*Per hammock bed. All hammock models hold at least 700 lbs. However, never exceed this limit since it ensures the best weight to strength ratio.

**To be fully winterized, hammocks must have a WeatherShield (adds about 7 oz where optional)

***The MARK2 tarp (included in packing weight) is 9 oz and clips down to the outline of the hammock so that it can serve as an effective cover in ground-use.

Model	Mosquito-resistant bed fabric	Built-in stuff sack system	Non-wicking ropes strength (Lbs)	Anti-stress bungee cords	Velcro installed to receive underquilt	Bed length (in)	Bed Width (in)	Storage pockets under hammock	Pockets for small items inside hammock	Netted-hood with zippered nylon closure	Access to storage from interior zippers	Dedicated interior pack storage
